

Zain's Introduction

I am taking the class for my graphic design degree. I hope to learn more about designing a website and the behind the scenes stuff.

About Me

Zain's Hobbies

Music

I have been listening to music since I was a baby. I actually collect records and cds because I like the actual experience of going to the store and buying the album and looking at the packaging for the first time. Also, this way you can support the artist and experience the music in a different way. I've been collecting cds for about 10 years now and records for 3.

TV

I would consider myself an avid tv watcher. I like to watch shows that are in the thriller/mystery genre or comedies. I also collect these on dvd/bluray but I really only buy my favorites.

Graphic Design

As a kid, I would always draw or paint with watercolors. When someone would ask me what my favorite subject was art. I think this is why I now like graphic design. I don't have amazing drawing skills but programs like adobe photoshop and illustrator help me get my ideas across
